

To prioritise the safety of our guests and the sustainability of our tracks. In severe wet weather conditions, we have the following policy in place:

1. Closure of Tracks in Severe Weather: In the event of severe weather, all tracks may be closed to recreational driving. This is to ensure the safety of all guests and minimise any potential damage to the tracks.
2. Driving Restrictions: In moderate weather conditions, we may restrict driving to Front Valley only. This is to minimise damage to the tracks and ensure the safety of all guests.
3. Suitable Clothing: We recommend all guests to wear suitable clothing in wet weather conditions. This includes waterproof jackets, sturdy boots, and warm layers. Please avoid wearing clothing that may restrict your movement or become hazardous in muddy conditions.
4. Muddy Conditions: Please expect muddy conditions during wet weather. We advise all guests to exercise caution and reduce speed on tracks to minimise the risk of accidents.

Track closure and restrictions will be listed on the notice board in reception.

We appreciate your cooperation in following our wet weather policy to ensure a safe and enjoyable experience for everyone.

The case of an emergency you can contact the 4WD park's reception on UHF radio Channel 15, please be mindful that you may need to contact the The park via mobile on 0488551116 if reception is poor.

In the case of an emergency Channel 5 and 35 are dedicated emergency contact channels.
