

# VEHICLE SET UP RECOMMENDATIONS

## Vehicle Set Up Recommendations

**Vehicle inspection:** Complete a vehicle inspection before heading off. Include; fuel, oil, lights, belts, brakes, exhaust is not loose and a general look around the car.

**Check tyres:** Properly inflated tyres will provide better traction and handling. Ensure your tyres are not damaged and have no objects embedded in them and your wheel nuts are secure.

**Engage 4WD:** Shift the vehicle into 4WD mode before heading off-road.

**Lock differentials:** If your vehicle has a differential lock, engage it for maximum traction.

**Adjust driving speed:** Slow down and drive carefully on rough terrain.

**Know your vehicle's clearance:** Be aware of your vehicle's height and approach angles to avoid damage.

**Carry recovery gear:** Bring a tow strap, and other recovery gear in case you get stuck. If you have a winch ensure the hook and/or shackle are correctly secured

**Battery:** Ensure your battery is firmly secure

**Respect nature:** Stay on designated trails to avoid damaging the environment. Do not enter camp sites unless you have an approved booking.

**Seat belts:** Drivers and Passengers are required to wear a seat belt at all times

**Have fun:** Enjoy the adventure of off-roading, but always prioritise safety for others and yourself
